164 Packet History and Status - 004271

Use this page to log each step off and pick up of the 164 Packet. The screen shows the review locations at which the pack should be signed according to the 164 template. If you need to add a new location, or if you have had to re-submit the packet to a location you have already visited, simply select the location from the list below, and click on the button. You may move locations up and down on the list by clicking and dragging the review location. To mark the status of the packet, click the "Status" link in the table. If you need to remove a location from the table, click the "Delete" button.
