Subject: Chapter Burial and Cemetery Policies

On February 14, 2024, the Resources and Development Committee (“RDC”) approved the Navajo Nation Burial and Cemetery Regulations (“NNBCR”).¹ Honorable Council Delegate Casey Allen Johnson sponsored the NNBCR and he requested that the DOJ Chapter Unit provide some additional information to Chapters regarding Section VI which contains the Chapter Burial and Cemetery Policies. This memorandum will serve that purpose.

All one-hundred and ten Chapters are political subdivisions of the Navajo Nation.² The Local Governance Act (“LGA”), enacted in 1998, governs Chapters and it is commonly known that the Navajo Nation Council is the primary entity that delegates authorities to Chapters.³ Accordingly, at section 103(E)(9), it expresses that governance certified Chapters (a.k.a., “LGA Certified Chapters) are empowered to propose an ordinance⁴ to impose “[l]ocal fees based upon guidelines established by the Navajo Nation Council.”⁵

A year after the LGA was passed, the former Resources Committee of the Navajo Nation Council passed a Resolution⁶ requesting each Chapter to set aside some lands for a community cemetery. The exhibits to the Resolution also recognized the need for Chapters to develop policies for interment and to be responsible for the construction and maintenance of cemeteries. However, no policies were developed and there were no formal delegations of authority given to Chapters. Therefore, various issues such as open range burials, burial plot fees, and continued to be problematic. In 2000, the Department of Justice and the Navajo Land Department led an effort to create a policy to contain comprehensive policies to address many of the death related matters as possible. In 2022, the Navajo Nation Council passed a Resolution⁷

¹ Attachment A. RDC Resolution No. RDCF-07-24.

² See 2 N.N.C. §1 and 26 N.N.C. §2(6).

³ See Navajo Nation Council Resolution CAP-34-98, Exhibit G, Clause II.

⁴ Using the ordinance procedures at section 2001 of the Local Governance Act.

⁵ Up until now, there had not been a formal express delegation of authority to Chapters to impose fees for burial services.

⁷ Resolution No. CD-73-22.

amending the Navajo Nation Burial Statute at 13 N.N.C. §§ 1901 *et. seq.*, wherein the RDC was empowered to grant further delegations of authority to Chapters.

First and foremost, the NNBCR is for modern burials. The NNBCR is not meant to apply to any traditional burials. The NNBCR is also not meant to apply to any of the historical burial sites which are governed by various federal laws and especially the *Jischa*' Policy.

Secondly, this memorandum will not re-state the entirety of the NNBCR. Therefore, Chapters should not rely solely on this memorandum. Instead, this memorandum should be used to aid Chapters in their understandings of the NNBCR. In other words, Chapters ought to have this memorandum side-by-side with the NNBCR. With that being said, here are some of the highlights of section VI of the NNBCR:

- All 110 Chapters, whether governance certified or not, have been formally delegated to develop policies for interment. Such policies shall:
 - Adopt the burial standards and cemetery standards in accordance with section V(B), (C), and (D) of the NNBCR.
 - Chapters will need to assign a “Sexton” for Chapter cemeteries only. Section II(V) of the NNBCR expresses that the Sexton cannot be a Council Delegate, Chapter Official, Chapter employee, Grazing Official, valid Grazing permittee, Land Board member, Farm Board member, or any Navajo Nation employee or official unless otherwise specified. The reason for this clause was to eliminate the practice of funeral homes and families running from person to person trying to find someone to sign their Final Disposition Authorization for a family plot burial. The definition helps to eliminate that practice. As for Chapter cemeteries, Chapters will be able to “specify” who the sexton will be for their Chapter cemetery. This will likely be the Chapter Manager or the Community Service Coordinator (“CSC”). However, it may make sense for the Chapter policy to name an alternate in the event the Chapter Manager or CSC is unavailable.
 - If a Funeral Home and/or Family Member requests the Chapter to sign their Final Disposition Authorization for a burial that is not a Chapter cemetery, the Chapter should inform them that the Chapter has no jurisdiction to sign their form. The Chapter may provide a copy of the NNBCR and this memorandum.
 - The Chapter policy will need to designate an employee to maintain the cemetery grounds in terms of upkeep. This person may be the sexton or another employee.

- Any and all Chapter policies will need to be reviewed by the DOJ Chapter Unit before the Chapter considers their policy for vote at a Regular Chapter Meeting.
- All 110 Chapters, whether governance certified or not, have been formally delegated to request for land withdrawals from the General Land Development Department (Navajo Land Department) for the purpose of establishing a Chapter cemetery. The maximum acreage is currently set at thirty (30) acres.⁸ The cemeteries must be consistent with the Community Land Use Plan (“CLUP”). If your current CLUP is silent on a plan for a cemetery, the Chapter ought to begin planning for amendments to their CLUP to accommodate the plans for a cemetery.
- Two or more Chapters may share a single cemetery. In doing so, the Chapters will need to execute an Intragovernmental Agreement stating what the duties and responsibilities are for each Chapter in terms of maintenance, burial services, fees, and coordination of burials.
- Burial Plot Fees are separate and different from Burial Services. Let’s start with Burial Plot Fees wherein section VI(D)(1)(a) imposes a maximum fee of \$150.00. If a non-governance certified Chapter (a.k.a., “non-LGA certified) wishes to increase this amount, these Chapters will need to seek approval from RDC to increase their burial plot fee amount. Whereas, if you are a governance certified Chapter (a.k.a., “LGA certified”), then your Chapter does not need to go to RDC. Instead, LGA certified Chapters can follow the ordinance procedures in section 2001 of the LGA which will allow their community to vote on whether to increase the burial plot fee or not. Importantly, increases in burial plot fees will not require a ballot vote. However, Chapters will need to follow all of the other procedures in section 2001 of the LGA such as developing an ordinance, reading it in English and Navajo at two consecutive chapter meetings, posting the ordinance for a minimum of 14 days (after the second meeting), then voting on it at the third meeting which should be a Regular Chapter Meeting. LGA certified Chapters should review section 2001 for more in-depth information about the entirety of the Chapter ordinance process. In any event, Chapters should not rely solely on the summary description provided in this memorandum for the ordinance procedures.
- Chapters cannot charge decedent veterans for a burial plot fee. This restriction is not just for Chapters. It applies to all cemeteries on the Navajo Nation.

⁸ 13 N.N.C. § 1951.

- Chapters may charge *reasonable* fees for burial related services. Unlike burial plot fees, burial related service fees can be charged to decedent veterans. Typical examples for burial related services are excavation and backfill services. As commonly known, Chapters use these fees to pay for fuel and maintenance of heavy equipment being used for burial related services.
- While Chapters may charge fees, Chapters may also waive any fee when such fees are unaffordable. When Chapters are developing their interment policies, it would be a good idea to set forth objective standards to help Chapters determine when to consider such waivers of fees.
- For any fees collected as burial plot fees and/or burial related services, Chapters will need to budget this revenue separately and create a fund management plan specifying how these funds can be spent for the operation and maintenance of the cemetery, Chapter burial services, and other burial related costs. In fact, it may be prudent for Chapters to create a new fund account if possible.
- Chapters need to develop administrative protocols to ensure that all Chapter Officials and Chapter employees will be informed of these policies. Everyone needs to be able to provide the same information to the grieving families. As section VI(F) states, Chapters ought to share information about the Navajo Nation Burial Assistance Program, *if available*. In any event, if the Chapter Official/Employee does not know how to answer a question that is being posed to them, the Chapter Official/Employee should direct the person/party to the Chapter's sexton.

As stated herein, this memorandum is not meant to replace the NNBCR. Rather, this memorandum is meant to provide Chapters with some guidance about some of the provisions contained in the NNBCR. Furthermore, this memorandum is not meant to capture every possible scenario that a Chapter may experience. Therefore, for any questions not covered in the NNBCR or in this memorandum, Chapter Officials & Employees are encouraged to submit a Request for Legal Services using the High Q portal which can be accessed at: <https://nndoj.navajo-nsn.gov/High-Q>.
